SUMMARY

Full-Stack Developer with 2+ years of experience working with the MERN Stack, Next.js, React, Node.js, Express, and MongoDB. I've built real SaaS products at Saasify Labs and created scalable applications as the Founder of SouqStack. I enjoy working on APIs, responsive UIs, cloud deployments (Vercel/AWS), authentication systems, performance improvements, and full end-to-end web development.

TOP TECH SKILLS

Frontend: Next.js • React.js • TypeScript • Redux • Tailwind CSS • Framer Motion • Three.js • Babylon.js

Backend / DevOps: Node.js • Express.js • NestJS • REST APIs • MongoDB • Prisma • AWS (EC2/S3) • Vercel • SaaS Apps • API Integration

Project Management: Agile Methodologies • Team Collaboration • Client Communication • Roadmap Planning • Project Delivery

PROFESSIONAL EXPERIENCE

Founder & SaaS Product Developer | SouqStack   *2023–Present*
- Built SaaS products, marketplaces, and scalable web apps.
- Managed **end-to-end development, UI/UX, deployments**, and client projects.
- Delivered responsive full-stack projects for clients using Next.js, Express, Tailwind CSS, and APIs.

Full-Stack Developer | Saasify Labs   *Feb 2025–July 2025*
- Developed SaaS platforms including **90 Events, Turkish Week, TGI Tours**.
- Worked on **Next.js, TypeScript, NestJS, Tailwind CSS, MongoDB, Prisma** and deployed 5+ live projects.

PROJECTS

◆ **Mualim [Live]**
Educational Institute Website
- Mualim is an e-learning institute and e-commerce platform for selling courses, books, and creative products, with an interactive learning experience for students.
  - Next.js, Redux, Tailwind CSS, TypeScript, Express, MongoDB, Socket.IO, Google Classroom API

◆ **90Events [Live]**
Event Booking Platform
- 90 Events is a Turkish event-booking platform featuring a powerful dashboard where organizers can create detailed seat maps for venues. Users can browse events, select seats directly from the map, and purchase tickets seamlessly.
  - Next.js, Redux, Tailwind CSS, TypeScript, NestJS, MongoDB, Prisma, Payment Gateway

◆ **Turkish Week [live]**
Event & Tour Booking Platform
- Turkish Week: Event & tour bookings, B2B meetings, e-commerce, all managed via an intuitive admin dashboard.
  - Next.js, Redux, Tailwind CSS, TypeScript, NestJS, MongoDB, Prisma, Payment GatewayI

◆ **Tgi Tours [live]**
Tour Booking Platform
- TGI Tour is a platform that manages multiple websites via a secure API. Using the TGI dashboard, admins can create tours, which are then displayed across connected websites for booking.
  - Next.js, NestJS, Redux, Tailwind CSS, TypeScript, MongoDB, Prisma
